## 1 Presentation of the annual accounts

The annual accounts of the European Environment Agency include the financial statements, the report on implementation of the budget, and the report on budget and financial management during the year.

The financial statements comprise the balance sheet and the economic outturn account at 31 December, the cash-flow table and the statement of change in capital.

The objectives of financial statements are to provide information about the financial position, performance and cash flows of an entity that is useful to a wide range of users. For a public sector entity such as the European Environment Agency, the objectives are more specifically to provide information useful for decision making, and to demonstrate the accountability of the entity for the resources entrusted to it.

If they are to present a true and fair view, financial statements must not only supply relevant information to describe the nature and range of the activities, explain how it is financed and supply definitive information on its operations, but also do so in a clear and comprehensible manner which allows comparisons between financial years. It is with these goals in mind that the present document has been drawn up.

The accounting system of the European Environment Agency comprises budget accounts and general accounts. These accounts are kept in euro on the basis of the calendar year. The budget accounts give a detailed picture of the implementation of the budget. They are based on the modified cash accounting principle.<sup>1</sup> The general accounts allow for the preparation of the financial statements as they show all revenues and expenses for the financial year and are designed to establish the financial position in the form of a balance sheet at 31 December.

The annual accounts are drawn up in accordance with Article 76 of the Financial Regulation of the European Environment Agency adopted by the Management Board on 26 March 2003.

As from 1 January 2005, the Agency has amended its general accounting system and procedures to comply with the requirements in the Financial Regulation regarding accrual accounting. In essence this means that from this date onwards, accounting events are recorded when they arise, rather than when the cash is received or paid. These events are classified as assets, liabilities, revenue or expenses. A number of adjustments has been made in order to make the opening balance of 1 January 2005 accurate and complete from an accrual-based perspective.

According to Article 82 of the Financial Regulation, the Agency's accounting officer shall send to the Commission's accounting officer by no later than 1 March of the following year its provisional accounts, together with the report on budgetary and financial management during the year. The Executive Director shall send the final accounts, together with the opinion of the management board, to the Commission's accounting officer, the Court of Auditors, the European Parliament and the Council, by 1 July of the following year at the latest.

The final annual accounts will be published in the Official Journal of the European Communities together with the statement of assurance given by the Court of Auditors by 31 October of the following year in accordance with Article 83 of the Financial Regulation.

---

<sup>1</sup> This differs from cash-based accounting because of elements such as carryovers.

## 2.6.3 Accounting principles, rules and methods

Article 78 of the Financial Regulation sets out the accounting principles to be applied in drawing up the financial statements:

- going concern basis;
- prudence;
- consistent accounting methods;
- comparability of information;

- materiality;
- no netting;
- reality over appearance;
- accrual-based accounting.

### **Transactions and balances**

Foreign currency transactions are converted into euro using the exchange rates prevailing at the dates of the transactions.

Year-end balances of monetary assets and liabilities denominated in foreign currencies are converted into euro on the basis of the exchange rates applying on 31 December .

Foreign exchange gains and losses resulting from the settlement of foreign currency transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the economic outturn account.

### **Intangible fixed assets**

Intangible fixed assets are valued at their acquisition price converted into euro at the rate applying when they were purchased, less depreciation and impairment. The exception is assets acquired free of charge that are valued at their market value. See depreciation rates below.

### **Tangible fixed assets**

Tangible fixed assets are stated at historical cost. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Agency and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the economic outturn account during the financial period in which they are incurred.

Depreciation is calculated using the straight line method to allocate depreciation cost to the assets' residual values over their estimated useful lives, as follows:

<b>Type of asset</b>	<b>Straight line depreciation rate</b>
Intangible assets	25%
Plant, machinery and equipment	10% to 25%
Furniture	10% to 25%
Fixtures and fittings	10% to 33%
Computer hardware	25%
Other fixed assets	10% to 33%

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, on a regular basis. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the economic outturn account.

### **Impairment of assets**

Assets that have an indefinite useful life are not subject to amortization and are tested regularly for impairment. Assets that are subject to amortization are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized as the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use.

### **Pre-financing amounts**

Pre-financing is a payment intended to provide the beneficiary with a cash advance, i.e. a float. It may be split into a number of payments over a period defined in the particular pre-financing agreement. The float or advance is repaid or used for the purpose for which it was provided during the period defined in the agreement. If the beneficiary does not incur eligible expenditures, the beneficiary has the obligation to return the pre-financing advance to the Agency. The amount of the pre-financing is reduced (wholly or partially) by the acceptance of eligible costs and amounts returned.

At year-end outstanding pre-financing amounts are valued at the original amount(s) paid less: amounts returned, eligible amounts cleared, estimated eligible amounts not yet cleared at year-end, and value reductions.

Interest on pre-financing is recognised as it is earned in accordance with the provisions of the relevant agreement.

### **Receivables**

Receivables are carried at original invoice amount less write-down for impairment. A write-down for impairment of receivables is established when there is objective evidence that the Agency will not be able to collect all amounts due according to the original terms of receivables.

### **Cash & cash equivalents**

Cash and cash equivalents include bank accounts and cash in hand.

### **Use of estimates**

In accordance with generally accepted accounting principles, the financial statements necessarily include amounts based on estimates and assumptions by management. Significant estimates include, but are not limited to, accrued income and charges, contingent assets and liabilities, and degree of impairment of fixed assets. Actual results could differ from those estimates. Changes in estimates are reflected in the period in which they become known.

In accordance with Article 15 of the Financial Regulation, the subsidy paid by the Commission shall count as pre-financing and bear interest for the benefit of the general budget of the Commission.

#### **3.2.2 Budgetary principals**

The establishment and implementation of the budget of the European Environment Agency are governed by the following basic principles:

- (a) **unity and budget accuracy:**  
all expenditure and revenue must be incorporated in a single budget document, must be booked on a budget line and expenditure must not exceed authorised appropriations;
- (b) **universality:**  
this principle comprises two rules:
  - the rule of non-assignment, meaning that budget revenue must not be earmarked for specific items of expenditure (total revenue must cover total expenditure);
  - the gross budget rule, meaning that revenue and expenditure are entered in full in the budget without any adjustment against each other;
- (c) **annuality:**  
the appropriations entered are authorised for a single year and must therefore be used during that year;
- (d) **equilibrium:**  
the revenue and expenditure shown in the budget must be in balance (estimated revenue must equal payment appropriations);
- (e) **specification:**  
each appropriation is assigned to a specific purpose and a specific objective;
- (f) **unit of account:**  
the budget is drawn up and implemented in euro and the accounts are presented in euro;
- (g) **sound financial management:**  
budget appropriations are used in accordance with the principle of sound financial management, namely in accordance with the principles of economy, efficiency and effectiveness;
- (h) **transparency:**  
the budget is established and implemented and the accounts presented in compliance with the principle of transparency - the budget and amending budgets are published in the Official Journal of the European Communities.

### 4.2 Execution of the budget

During the year 2005, 99,9% of the available appropriations were committed (2004: 99,8%). The carryover of payment credits (excluding grants, i.e.R0 funds) from 2005 to 2006 was EUR 5,472,880.85, i.e. slightly lower than the previous year (5,68 mio euro).

In total, the carried over amounts can be specified as follows:

	C1	R0	C4	C5	Sum
Title 1	508,317.76	321,326.98	5,848.21	13,889.52	849,382.47
Title 2	895,344.77	27,000.00	26,015.84	9,936.59	958,297.20
Title 3	4,069,218.32	1,819,320.25	32,543.47	14,495.34	5,935,577.38
<b>Sum</b>	<b>5,472,880.85</b>	<b>2,167,647.23</b>	<b>64,407.52</b>	<b>38,321.45</b>	<b>7,743,257.05</b>

Cancellation of unused payment appropriations carried over from previous year (C8 funds) amounted to EUR 373,247.00, significantly lower than 2004 when EUR 507,953.00 were cancelled.

### 4.3 Property tax

In the years 2004 and 2005 the Agency has paid property tax to the Copenhagen Commune. In the year 2004 it paid EUR 698,093.00 covering the period 2000-2003, and EUR 207,730.00 for the year 2004. For the year 2005 the Agency has paid EUR 212,205.00.

In November 2005 the Danish government and the Agency have signed an amendment to the Headquarter Agreement which states that the Agency is exempted from all taxes in connection with the Agency's premises, being owned or rented, with effect from 1 January 2005. The issue regarding taxes paid in 2004 is not yet resolved but the Agency is of the opinion that the amount should be refunded.

In line with the position taken in the year 2004, the amount paid in respect of property taxes in 2004 has not been included as a receivable in balance sheet in order to respect the accounting principle regarding prudence in uncertain situations.

#### 4.4 Developments in the area of internal control

During 2005 the Agency's management board formally adopted a set of minimum standards for internal control as required by the Financial Regulation art. 38 (4). However, the Agency has already since 2002 been in a process of gradually implementing the standards.

In December, the Agency was also subject to an audit by the European Commission's Internal Audit Service.

The Agency's Executive Director initiated regular budget hearings with the Agency programme managers in order to improve the management and control of budget execution during the year.
