

Michiel Van Peteghem

Michiel Van Peteghem is head of Department of Air Quality, Environment and Communication at the Flanders Environment Agency (VMM), Belgium.

Michiel has an MA degree in Germanic Languages and a postgraduate degree in Business Administration from the University of Antwerp and a post-university degree in Political Sciences and International Relations from the Université catholique de Louvain. After a career at the University of Mons (1991-94), the Flemish Community Commission in Brussels (1994-97) and the University of Ghent (1997-98), he was assistant director communication (1999-2000) and advisor international environmental policy (2000-09) of the Flanders Environment Agency. In the period 2009-14, he was advisor Water policy and EU & international affairs to the Cabinet of the Flemish Minister for the Environment, Nature and Culture.

Since 2014, he is head of Department of Air quality, Environment and Communication of the Flanders Environment Agency. Amongst his responsibilities are air quality monitoring and modelling, air emissions inventory, state of the environment reporting (MIRA), communication (internal & external) and international environmental policy. Since 2014, he is also Flemish Government representative in the Management Board of *De Watergroep* (Public Water Company of Flanders, Belgium).
