72300000 Data services

**II.1.3) Type of contract**

Services

**II.1.4) Short description:**

This call for tenders aims at the establishment of a framework service contract with a qualified economic operator for the production of the CLC+ Core, involving the performance of the following set of tasks:

- design, detailed implementation of technical specifications and requirements from Annex 7 to the tender specifications;
- development, test and validation;
- staging, deployment and population of CLC+ Core;
- services relating to operations and maintenance, content and data management, user support and further limited development of the CLC+ Core;
- provision of ancillary consultancy and extended development services.

II.1.6) **Information about lots**

This contract is divided into lots: no

II.2) **Description**

II.2.1) **Title:**

II.2.2) **Additional CPV code(s)**

II.2.3) **Place of performance**

NUTS code: DK01 Hovedstaden

Main site or place of performance:

All services shall mainly be performed at the future contractor's own premises, with occasional meetings at the EEA premises in Copenhagen, depending on the requirements of each specific contract.

II.2.4) **Description of the procurement:**

As specified in sections 1.4, 1.5 and 1.9 of the tender specifications (Annex I) and in Annex 7 thereof.

II.2.5) **Award criteria**

Quality criterion - Name: Implementation approach: Under this award criterion, the quality and completeness of the tenderer's proposed implementation approach will be evaluated by determining the tender's degree of compliance with the tasks specified in section 1.4 and his overall ability: To create the best possible foundation for the CLC + Core project in terms of collaboration, efficient project management and governance, and To develop a detailed design of the CLC+ Core product according to the Technical Specification in annex 7 to be used for development of the CLC+ Core / Weighting: 15

Quality criterion - Name: Development methodology and quality Under this award criterion, the quality and completeness of the tenderer's proposal and response with respect to the methodology proposed will be evaluated by determining the tender's degree of compliance with the following requirements: Development of CLC+ Core (proposed database architecture, ingestion and extraction architecture and design, toolset) and implementation of the technical requirements of annex 7 A complete development process that reflects the complexity and innovative use of database technology that handles big data and the nature of the CLMS datasets Innovative implementation of the ingestion and extraction requirements to support handling of the complex datasets Quality, completeness and fitness of the test and validation process / Weighting: 30

Quality criterion - Name: Dissemination system: Under this award criterion, the quality and completeness of the tenderer's proposal as regards the dissemination system will be evaluated by determining the tender's degree of compliance with the following requirements: Population of the CLC+ Core database using the CLC+ Core ingestion module and processes with CLMS datasets to produce an operational database To deploy CLC+ Core to the future production milieu on a DIAS cloud-based platform To ensure maturity for future production of tailored thematic information To accept the delivery of the full CLC+ Core product / Weighting: 15

Quality criterion - Name: User engagement and support: Under this award criterion, the quality and completeness of the tenderer's proposal as regards the user engagement, support and maintenance will be evaluated by determining the tender's degree of compliance with the following requirements: To assist in using

the CLC+ Core platform in an efficient and qualitative way through a competent support system To maintain a fully operational, efficient, accessible, and high performance CLC+ Core production To support a growing number of users (at first limited to expert users and contractors) / Weighting: 10

Price - Weighting: 30
