Denmark-Copenhagen: Copernicus initial operations 2011–2013 — land monitoring service coordination and production of Corine land cover for non-EU countries: Turkey 2014/S 109-190945

Incomplete procedure

(Supplement to the Official Journal of the European Union, 24.4.2014, 2014/S 80-139282)

Note:

The awarding procedure has been discontinued.

EEA has decided to abandon the tendering procedure.

The grounds for that decision are:

The production of Corine land cover 2012 in Turkey has already been awarded by the nominated Eionet National Reference Centre for land cover of Turkey (Ministry of Forestry and Water Affairs/IT Department), in alignment with the EEA specifications for the CLC products.

In order to avoid duplication of funding and work it has been decided to abandon the tendering procedure pursuant to the provisions of Article 114 of the Financial Regulation applicable to the general budget of the Union.

As a consequence, the related corrigendum (Supplement to the Official Journal of the European Union, 29.4.2014, [2014/S 83-143701](#)) is cancelled accordingly.
