

## ANNEX 8 to the Tender Specifications

### Description of EEA premises with an indication of the programme code for cleaning indoor areas (furniture, fittings and floor cleaning)

The **programme code** can be broken down as follows:

1st digit - indicates the number of times a week the room has to be cleaned.

2nd digit - indicates the number of times a week that the floor area in the room has to be cleaned thoroughly.

The difference between the first and second digit thus represents the number of times a week that general cleaning of the floor area is to be carried out.

3rd digit - indicates the number of times a week that the furniture and fittings in the room are to be cleaned thoroughly.

The difference between the first and third figure thus represents the number of times a week general cleaning of furniture and fittings has to be carried out.

For example, a programme code with the designation **521** should be interpreted as follows:

- The room has to be cleaned **5** days a week.
- Thorough floor cleaning must be carried out **2** days a week (and general floor cleaning 3 days a week).
- Thorough cleaning of furniture and fittings must be carried out **1** day a week (and general cleaning of furniture and fittings 4 days a week).

**Programme code 111 indicates that the room has to be cleaned once a week and that both flooring, furniture and fittings are to be cleaned thoroughly on that occasion.**

**KN6 - Basement**
