**Clarification No 1 for open call for tenders:
Framework service contract for Geospatial data analysis consultancy services**

Reference number: EEA/SES/09/001

Question 1:

Are the technical offer and the financial offer going to be submitted in one envelope or in two different envelopes?

Answer 1:

Section 5 of the Tender specifications states that the *"Tenders must specify the Call for tender concerned, comprise a technical and a financial offer and be submitted in one original and two copies."* Furthermore, according to the invitation letter, paragraph 4, *"Tenders must be placed inside two sealed envelopes. The inner envelope should be marked as follows: "Reply to tender EEA/SES/09/001 – not to be opened by the internal mail department"...."*

This means that the technical offer and the financial offer may be submitted in one envelope (all together in one original and two copies).
