### **Section III: Legal, economic, financial and technical information**

- III.1) **Conditions relating to the contract**
- III.1.1) **Deposits and guarantees required:**  
As specified in the draft framework contract attached as Annex 6 to the tender specifications.
- III.1.2) **Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them:**  
As specified in the draft framework contract attached as Annex 6 to the tender specifications.
- III.1.3) **Legal form to be taken by the group of economic operators to whom the contract is to be awarded:**  
Tenders may be submitted by consortia of economic operators. If a consortium is awarded the contract, it may be required to adopt a given legal form before the contract is signed if this change is necessary for proper performance of the contract. This can take the form of an entity with or without legal personality but offering sufficient protection to the EEA's contractual interests (depending on the member country concerned, this may be for instance, incorporation or partnership or a temporary association). Consortia must identify one of their

members as coordinator who will interface with the EEA. Each member of a consortium must fulfil the conditions for participation specified under Section III.2.1 below.

III.1.4) **Other particular conditions**

The performance of the contract is subject to particular conditions: no

III.2) **Conditions for participation**

III.2.1) **Personal situation of economic operators, including requirements relating to enrolment on professional or trade registers**

Information and formalities necessary for evaluating if the requirements are met: Exclusion criteria — to be eligible for participation in this contract award procedure, tenderers must not be in any situation referred to in Articles 106 and 107 of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25.10.2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002, OJ L 298/1 of 26.10.2012. To that effect, tenderers are requested to submit a declaration on their honour (Annex 2 to the tender specifications) in accordance with Article 143 of Commission Delegated Regulation (EU) No 1268/2012 of 29.10.2012 on the rules of application of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council on the financial rules applicable to the general budget of the Union (OJ L 362/1 of 31.12.2012). Under the same provision, the tenderer to whom the contract is to be awarded will be required to produce evidence confirming the prior declaration (see Section 11.1.2 of the tender specifications).

Legal capacity — tenderers are required to prove that they are authorised to perform the contract under national law, as evidenced by inclusion in a trade or professional register and/or entry in the VAT register. To that effect, tenderers are required to submit a legal entity form (see Annex 3 to the tender specifications) duly filled out and signed, accompanied by a copy of inscription in the trade register and/or a copy of inscription in the VAT register, where applicable. In addition, tenderers must indicate in which country they have their headquarters, registered office or residence, and provide the necessary supporting documents in accordance with their national law (see Annex 1 to the tender specifications).

III.2.2) **Economic and financial ability**

Information and formalities necessary for evaluating if the requirements are met: Evidence of economic and financial capacity shall be furnished by 1 (or more) of the following documents:

- appropriate statements from banks or evidence of professional risk indemnity insurance,
- the presentation of balance sheets or extracts from balance sheets for at least the last 2 years for which accounts have been closed, where publication of the balance sheet is required under the company law of the country in which the economic operator is established,
- a statement of overall turnover and turnover concerning the services covered by the contract during the last 2 financial years.

If, for some exceptional reason, which the EEA considers justified, a tenderer is unable to provide the references requested above, he may prove his economic and financial capacity by any other means which the EEA considers appropriate.

An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. It must in that case prove to the EEA that it will have at its disposal the resources necessary for performance of the contract, for example by producing an undertaking on the part of those entities to place those resources at its disposal.

III.2.3) **Technical capacity**

Information and formalities necessary for evaluating if the requirements are met:

Tenderers should show their degree of technical and professional capacity to carry out the requested tasks as mentioned in Section 6 of the tender specifications by providing information on the criteria described below. If several service providers or subcontractors are involved in the tender, the selection criteria for the technical and professional capacity will be assessed in relation to the combined capacities of the service providers and subcontractors, as a whole, to the extent that service providers or subcontractors put their resources at the disposal of the tenderer for performance of the contract.

Tenderers shall provide the following documentation:

• Human resources:

- (i) CVs detailing the educational and professional qualifications of the firm's managerial staff as well as those of the staff designated to provide the services indicating the required professional experience as follows:  
for all lots: minimum 1 CV detailing the educational and professional qualifications of the firm's managerial staff documenting a minimum of 5 years' relevant experience (this person can also be a senior consultant);  
for all lots: CVs of senior consultants who will be responsible for providing the services (documenting a minimum of 3 years' relevant professional experience for any single consultant). The number of CVs required for each area of experience is listed under Section 7.2 of the tender specifications. Within each lot the same CVs can cover many areas, given that the total sum of months is at the minimum number required in Section 7.2 of tender specifications;  
for lot 6: CVs of an additional 3 consultants and supporting specialists who can potentially take over responsibility for providing services in busy periods (documenting a minimum of 1 years' relevant professional experience for any single consultant);
- (ii) an overview in a cross table of all staff responsible for providing the services giving the total amount of months worked in each of the areas specified under Section 7.2 of the tender specifications.

III.2.4) **Information about reserved contracts**

III.3) **Conditions specific to services contracts**

III.3.1) **Information about a particular profession**
