Clarification No 1 for Inter-institutional open call for tenders:

Framework contract for the provision of medical services

Reference number: EEA/ADS/09/001

Question:

A question has been received in relation to the type of ECG to be performed in the framework of the services to be provided.

Answer:

In the context of this call for tender, it means a standard ECG, sometimes called a resting ECG, as it is taken while the patient is not doing any activity.
