Identification

Resource Title: Urban Audit Cities 2011-2014

Resource Abstract: This dataset contains the boundaries of cities, greater cities and functional urban areas, defined according to the EC-OECD city definition and used for the Eurostat Urban Audit data collection. This dataset contains revisions up to the 1st January 2015. The cities are defined at several conceptual levels: - the core city, using an administrative definition the Functional Urban Area/Large Urban Zone (FUA/LUZ), approximating the functional urban region and for 8 capitals, the City Kernel, a concept introduced to improve comparability between large cities. Geometry was derived from Eurogeographics Euroboundarymap (EBM) v6 and 6.2. The coverage is the EU-28 plus Iceland (IS), Norway (NO) and Switzerland (CH). The dataset includes polygon, point and attribute table which can be joined on the URAU code field.

West Bound Longitude: -27

South Bound Latitude: 26

East Bound Longitude: 47

North Bound Latitude: 72

Temporal Reference

Date of publication 2015-05-07

Quality and Validity

Lineage The boundaries are derived from the local administrative boundary datasets (census 2011 reference), managed by Eurostat-GISCO and based on EuroGeographics EuroBoundaryMap v.6 and EBM 6.2. Further adaptations to in Switzerland due to changes in LAU geometry not yet reflected in EBM versions. Boundaries for Croatian cities are not yet confirmed to be complete.
