Annex 1: Self-assessment of the adaptation policy process in EEA member countries

Name of lead organisation responsible for the reply (including contact details):

We encourage involving other stakeholders with whom you work in filling out this self-assessment (e.g. researchers, EPAs, NGOs).

List of other stakeholder organisations also involved in filling out this form:

Part I: General statements on adaptation

- 1) In my country, in the past five years, the level of public awareness of the need for adaptation as a response to climate change has increased
 strongly agree agree neutral disagree strongly disagree don't know

- 2) In my country, the need for climate change adaptation has reached the national political agenda
 strongly agree agree neutral disagree strongly disagree don't know

- 3) In my country, the following influences have triggered adaptation ...
Please select the three most important triggers:
 ...Extreme weather events
 ...Damage costs
 ...UNFCCC process
 ...EU policies
 ...Adaptation in other countries
 ...Individuals
 ...Scientific research
 ...Public pressure
 ...Lobbying from private sector
 ...Front-runner sectors
 ...Media coverage

- 4) In my country, the willingness to develop policies and to take adaptation actions at national level is
 very high high medium low very low don't know

- 5) In my country, in the past five years, there has been an increase in the amount of adaptation-related knowledge (e.g. in relation to vulnerabilities, adaptation options) generated with the aim of informing policy making
 strongly agree agree neutral disagree strongly disagree don't know

- 6) In my country, uncertainties in future projections (e.g. uncertainties regarding climate change) are explicitly addressed in the adaptation policy process
 strongly agree agree neutral disagree strongly disagree don't know

7) In my country, adaptation objectives are based on an understanding of the impacts, risks and/or vulnerabilities to climate change

strongly agree agree neutral disagree strongly disagree don't know

8) In my country, integration of adaptation into sectoral policies and programmes is increasing

strongly agree agree neutral disagree strongly disagree don't know

Please provide examples:

[Please insert text](#)

9) In my country, aspects that are relevant to climate change mitigation are taken into account in the adaptation policy process

strongly agree agree neutral disagree strongly disagree don't know

Please provide examples:

[Please insert text](#)

10) In my country, transnational co-operation is considered as an element in our adaptation policy process

strongly agree agree neutral disagree strongly disagree don't know

Please provide examples:

11) In my country, the following barriers for adaptation have been identified...

Please select the three most important barriers:

- ...Lack of political commitment/will
- ...Unclear responsibilities
- ...Limited cooperation among stakeholders
- ...Lack of (financial, human) resources
- ...Uncertainties
- ...Lack of information (e.g. socio-economic data, guidance)
- ...Lack of exchange of knowledge
- ... Limited capacity in the policy, practitioner and/or research communities
- ... Conflicting values and interests
- ...Inadequate adaptation options available
- ...Legal issues
-

Part II: The adaptation policy process

12) In what stage of the adaptation policy process is your country in?

- ...Adaptation process has not started
- ...Agenda setting (i.e. adaptation is politically recognised as important)
- ...Formulation (i.e. responsible actors respond by formulating adaptation policies)
- ...Decision (i.e. policymakers have adopted an adaptation policy)
- ...Implementation (i.e. measures foreseen in the policy are being implemented)
- ...Monitoring and evaluation (i.e. review and updates of policy/actions)

Prepare the ground for adaptation

13) How would you assess the mechanism put in place at national level to coordinate the horizontal integration (i.e. integration into sectors) of the adaptation policy process?

- very effective effective medium effective less effective not effective no mechanism in place
 don't know

14) How would you assess the mechanism put in place at national level to coordinate the vertical integration (from national to local level) of the adaptation policy process?

- very effective effective medium effective less effective not effective no mechanism in place
 don't know

15) Please give a short description of the horizontal and vertical coordination of adaptation policy in your country. Please also indicate who has been involved and what mechanism for coordination has been used (please also indicate if these mechanisms have changed in the different stages of the process, e.g. from formulation to implementation).

18) In relation to the national assessment, how is/was the risk or vulnerability assessment process coordinated (e.g. who commissioned the work; who carried it out)? What methodological approach (e.g. literature review, modelling, expert appraisal) has been used? How have uncertainties been addressed?

Coordination

Please insert text

Methodological approach

Please insert text

19) In relation to the national assessment, have you identified the costs of climate change impacts and the costs and benefits of adaptation?

Please insert text

20) In relation to the national assessment, what kind of information is still needed for risk or vulnerability assessments?

Please select the three most important issues:

- ...Uncertainty estimates
- ...Local/community level information
- ...Consideration of different time periods
- ...Estimates of costs
- ...Estimates of benefits
- ...Information on interdependencies across sectors

- ...Consideration of social issues
- ...Others

21) In relation to the national assessment, do you plan to update the risk or vulnerability assessments?

- not planned
- planned but work has not started
- update of assessment has started
- update already available
- don't know

Are there requirements to do so on a regular basis? Please explain.

Please insert text

22) Have you identified and assessed adaptation options on the basis of risk or vulnerability assessments?

- yes
- currently under development
- not yet, but planned
- no
- don't know

If yes: options are available at

- ...national level
- ...sub-national level
- ...trans-national level
- ...sectoral level
- ...cross-sectoral level
- ...other

23) How have you identified and assessed adaptation options?

- ...Expert judgement
- ...Participatory processes
- ...Cost and benefit assessment
- ...Multi-criteria analyses
- ...Others

24) Please indicate the types of adaptation options identified:

- ... Grey options (i.e. technological, such as river flood defence, beach nourishment)
- ... Green options (i.e. ecosystem-based approaches that use nature's multiple services, such as crop diversification, enhancing the ability of indigenous plant and animal species to move across landscapes)
- ... Soft options (i.e. managerial, legal and policy approaches, such as awareness-raising initiatives, passing legislation, creating early warning systems, insurance, planning instruments)
- ... Combined options
- ... Others

25) Have you prioritised adaptation options?

- yes
- currently under development
- not yet, but planned
- no
- don't know

26) If you have prioritised adaptation options, which methodological approach (e.g. expert judgment, multi-criteria analysis) has been used?

Please insert text

27) Have the adaptation options been included in an action plan?

Implementation, monitoring and evaluation

28) Please provide a maximum of three examples of what you would consider as 'good practices' in adaptation that have already been put in place in your country. Please indicate why they are considered to be 'good practice'?

Please insert text

29) What are your plans for integrating new information and insights into existing adaptation policies?

Please insert text

30) In my country, monitoring, reporting and evaluating schemes for adaptation policies are ...

Monitoring

not planned planned under development currently being implemented

Reporting

not planned planned under development currently being implemented

Evaluation

not planned planned under development currently being implemented

Part III: Level of adaptation and policy instruments in sectors

31) Please highlight the relevant sectors/areas in your country and assess the current state of adaptation at various levels:

Please score the state of adaptation using the following scale:

Selected value Meaning

- 0= adaptation is not relevant for my country
- 1= need for adaptation not recognised and no measures implemented yet
- 2= coordination activities for adaptation started
- 3= some adaptation measures identified for the sector but not yet implemented
- 4= portfolio of adaptation measures identified and implementation (of some) launched
- 5= portfolio of adaptation measures implemented
- 6= portfolio of adaptation measures in place and monitored/evaluated

Use the arrows or the keyboard to input digits from 0 to 6

Part IV: Involvement of stakeholders

38) Have you involved stakeholders in the adaptation policy process?

No Yes

39) If yes, how would you assess the general contribution of stakeholders/actors engagement in the adaptation policy process?

very important important neutral less important not important

40) The three tables below allow you to identify the stakeholders involved and the format of their involvement for the development (1st table), implementation (2nd table) and monitoring and evaluation (3rd table) phases of the adaptation process.

Level of involvement:

- Information given = information has been provided to stakeholders (e.g. web-sites, newsletter, reports, informative meetings)
- Information gathered = information has been collected from stakeholders (e.g. online-survey)
- Consultation = feedback on policy draft proposals has been obtained from stakeholders (e.g. written feedback on policy drafts)
- Active involvement = stakeholders have actively been involved in, and have had the possibility to shape decision-making in the adaptation policy (e.g. advisory committees)
- Partnerships = decision-making power is redistributed through negotiation between responsible authority and stakeholders
- Empowerment = final decision is in the hands of the stakeholders

From the national perspective, what has been the involvement of stakeholders in the **development phase** of the adaptation policy process?
